BRAKE PADS

5 LAYERS OF QUALITY IN EVERY PAD

Shims: OE-quality, multi-layered shims for quieter braking 	Back plate: Powder coated high-strength pressed steel for increased strength and wear resistance 	OE underlayer: 3mm noise-absorbing friction material for reduced heat transfer and a stronger pad 	Friction material: 18 unique friction formulations engineered for the vehicle class 	Friction surface: OE configured chamfers and slots for improved bedding in performance 
---	---	--	--	---

- **100% in-house** manufacturing and **continuous investment** in R&D

- **99%** of our **brake pads** are **copper-free** and **'N' level** meaning the **highest standards** of **environmental compliance**

- **Reduced** environmental impact: **10 tons** of **plastic saved** on pads packaging

 **EV pad range** engineered specifically for **battery electric vehicles** - covering **3 million** vehicles from top **VM's**

 **Minimal noise, dust & vibration technology**, and created using **durable, eco-friendly materials**

LEADING COVERAGE

 **99%+ COVERAGE**

ACROSS EUROPE

340+ MILLION VEHICLES COVERED

PROVIDING THE BEST IAM COVERAGE!
