

### Delphi North America Announces First Parts Launch of 2025

- Delphi adds 56 parts to its Fuel Management and Vehicle Electronics portfolios

Delphi, a brand of PHINIA Inc., has announced the addition of **56 new parts** to its automotive aftermarket portfolio, covering almost 43 million vehicles in operation (VIO) across the United States and Canada.

Among the newly added components are 17 Fuel Management parts, which alone cover more than 5 million VIO. Over half of these fuel-related parts are first-to-market, including fuel pump module assemblies, fuel transfer units, and a fuel tank sending unit.

“One of our key priorities is making sure the right parts are available when you need them most—right in that ‘sweet spot’ when certain repairs are most common.” said Hailey Long, Director for Category Management, Pricing and Catalog for North America. “Not only does this mean first-to-market parts but also having the right parts at the right time. This approach drives value for both our customers and technicians by enhancing service readiness and market responsiveness.”

The Vehicle Electronics line sees a significant boost with 39 newly released parts, covering more than 33 million VIO. The parts announced include a variety of sensors, such as camshaft, crankshaft, mass air flow, throttle position, knock, and more. Notably, a few ignition coils and EGR valves have also been added, further rounding out Delphi’s already comprehensive electronics offering and ensuring technicians have the right parts for the job.

Delphi remains committed to demonstrating OE expertise and aftermarket agility in expanding our coverage and supporting technicians with the solutions they need to keep vehicles on the road. For more information, please contact your local sales representative.

#### About Delphi

Delphi, a brand of PHINIA Inc., is a global Aftermarket leader championing next-generation talent, first-to-market innovations, market-leading products, and smart service solutions for a better and more connected today and tomorrow. We are committed to developing solutions that prepare technicians all over the world to help vehicles go cleaner, better, further, right through their lives.

## About PHINIA

PHINIA is an independent, market-leading, premium solutions and components provider, with over 100 years of manufacturing expertise and industry relationships and a strong brand portfolio that includes DELPHI®, DELCO REMY® and HARTRIDGE™. With over 12,500 employees across 43 locations in 20 countries, PHINIA is headquartered in Auburn Hills, Michigan, USA.

Across commercial vehicles and industrial applications (medium-duty and heavy-duty trucks, buses and other off-highway construction, marine, agricultural and aerospace and defense), light commercial vehicles (vans and trucks) and light passenger vehicles (passenger cars, mini-vans, cross-overs and sport-utility vehicles), we develop fuel systems, electrical systems, and aftermarket solutions designed to keep combustion engines operating at peak performance, while at the same time investing in advanced technologies to unlock the potential of alternative fuels.

By providing what the market needs today to become more efficient and sustainable, while also developing innovative products and solutions to contribute to lower carbon mobility, we are the partner of choice for a diverse array of customers – powering our shared journey toward a cleaner tomorrow.
